Mr. [Ex. 6 - Personal Privacy]

I completely understand.

Thanks again,
Cindy

Ms. Caporale

Due to confidentiality commitments, as I am sure you can appreciate we can't disclose our clients without permission. I will have our staff contact our clients with your request on Monday to request release of the information you identified and advise you once we have been in contact with them.

Regards

Mr. [Ex. 6 - Personal Privacy]

Thank you very much for such a quick response. Is your client WV America Water in this case?

Cindy Caporale

Good afternoon Ms. Caporale

TestAmerica is glad to provide you information that may assist you. However, in compliance with our policies, contracts and conditions we would request that you either provide TestAmerica written release from the client or serve legal process for us to produce the requested information. Please advise how you would prefer to proceed and we will assist and comply.

Regards

[Ex. 6 - Personal Privacy]

I am the USEPA R3 Lab Manager and I am working with our Drinking Water Program managers to review existing GC/MS data that may have been acquired by laboratories during the initial days of the Charleston Drinking Water Incident.

Did your laboratory run the drinking water samples using GC/MS in full-scan? If so, we would be

interested in the raw data from some of the sample analysis. Below is the specific information we are seeking.

VOC and SVOC GC/MS raw data files, including a TIC report processed against the NIST or similar library, which includes the chromatogram and spectra for the 20 largest TICs, for the following samples that were been analyzed using a full scan rather than targeted MCHM scan:

- Approximately 4 of the highest quantitative results for MCHM at locations in the distribution system
- Plant finished water sample showing high quantitative result for MCHM

Please clarify the instrument type, method used (Drinking water versus SW-846 type protocol), and preservative/quench agent.

Please feel free to contact me for more information or if you have any questions.

Thanks,
Cindy
